The company: about us

Hydrogen and decarbonization mission
Torino- July 1° 2022

Baglioni SpA** is an Italian industrial group, worldwide leader in **pressure equipment** for storage and process in the **Compressed-air, Air-treatment and filtering applications, Oil & Gas, Petrochemical and **Hydrogen* markets.*

- 150 M€ in revenues in 2021
- 9 plants in 3 countries (ITA, USA, CHN)
- **20 years of experience in Hydrogen**

Our activities

Hydrogen and decarbonization mission
Torino- July 1° 2022

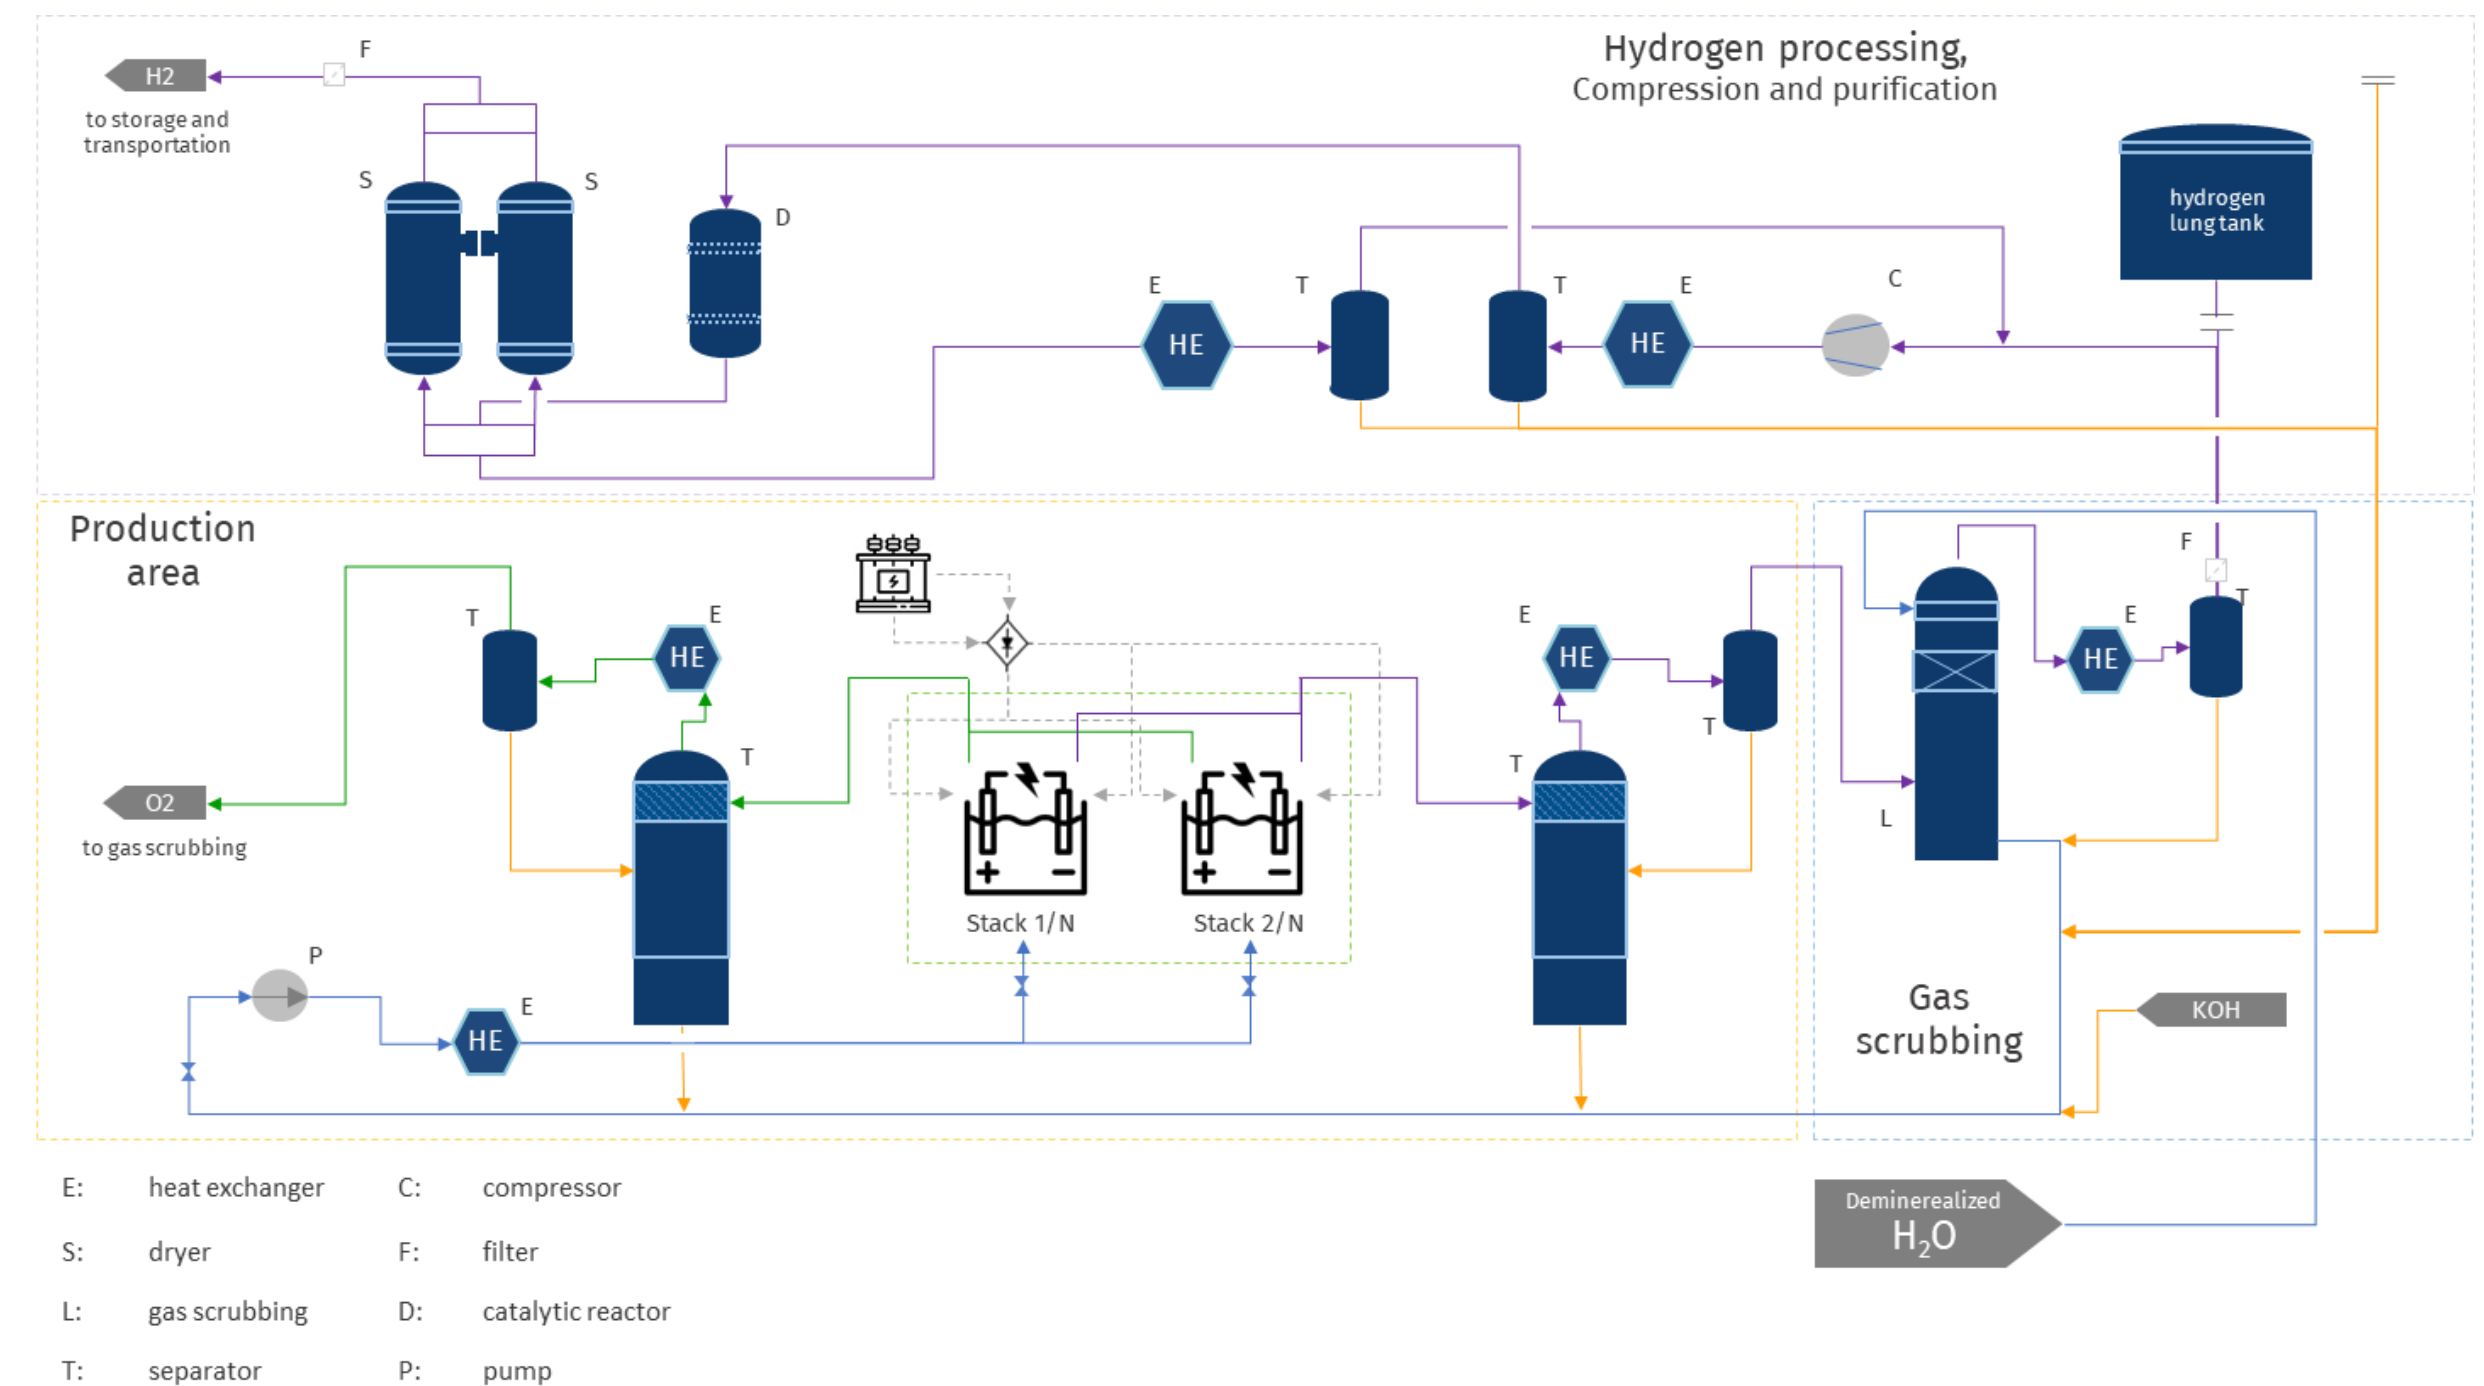

Baglioni has been active in the Hydrogen Market for 20 years, thanks to the **Oil & Gas**, where **H2 is a commodity**.

We have extensive experience in pressure, materials, temperatures, welding, and hydrogen management **in carbon and stainless steel**.

Our products related to Hydrogen:

- Shell and tube heat exchangers
- Gas coolers
- Columns
- Gas scrubbers
- Gas separators
- Dryers
- Catalytic reactors
- Hydrogen storage solutions up to 300 barg
- Tanks for H2 storage in solid state

PFD - Alkaline

What are we looking for

Hydrogen and decarbonization mission
Torino- July 1° 2022

We are looking for **new clients and partners:**

- For the BoP of electrolyzers – **mass production and custom designs**
- For **One-off projects**
- For storage solutions in **gaseous hydrogen**
- To expand our knowledge and usage of **solid state hydrogen storage**

What can we offer

Hydrogen and decarbonization mission
Torino- July 1° 2022

Flexibility, quality and competitiveness are the elements that make Baglioni SpA effective in supporting customers in both **standard projects** and **customized packages**.

Our **worldwide presence** ensures competitive services with **centralized design** that allow to co-ordinate the production phase among the **9 plants**, **keeping the same standard of quality** for all the companies of the group.

Baglioni products are designed and manufactured according to all main **international standards** (including marine certifications).

Since 1968, Italian design for worldwide pressure solutions
