The company: about us

Hydrogen and decarbonization mission
Torino- July 1° 2022

BLUE Engineering, founded in 1993, provides specific turn-key engineering and design services in different fields of excellence, such as **automotive, railway, aerospace, marine and ICT.**

BLUE services are concept & styling, design, engineering, virtual prototyping simulation, testing validating and ICT.

My name is Marco Eid, I am the R&D Coordinator in BLUE Engineering since 2020. BLUE R&D team is composed by 20 members and counts more than 30 research proposals in two years of activity.

Turnover ≈ 13.000.000 €
Employees: 120

BLUE Engineering headquarter is in Rivoli (Turin) and in Pomigliano d'Arco (Naples) has a subsidiary.

In 2019 BLUE is awarder by CRRC Tangshan as **Italian R&D center.**

What are we looking for

Hydrogen and decarbonization mission
Torino- July 1° 2022

- Develop new European and National research projects
- Increase the networking with research clusters enabling the interface with national and international actors
- Improve the know-how in Hydrogen, new materials and green transport systems
- Support the customer in the development of projects

What can we offer

Hydrogen and decarbonization mission
Torino- July 1° 2022

ENGINEERING & DESIGN

- Concept and style
- Design
- Engineering
- Virtual validation
- Assistance testing and validation
- Engineering software development
- Assistance manufacturing & logistics
- Information Technologies

What can we offer

Hydrogen and decarbonization mission
Torino- July 1° 2022

BLUE has improved its expertise by working on several scientific **research projects in the EU and Italy** in the past 20 years. These projects touched different fields, such as aerospace, automotive, rail vehicles, computing methods and software systems. R&D results achieved by the company have been applied to practical projects and with positive results.
