Hydrogen and decarbonization mission  
Torino- July 1° 2022

# What are we looking for

Hydrogen and decarbonization mission  
Torino- July 1<sup>o</sup> 2022

In the spirit of innovation and sustainability, we are looking for new projects, ideas, initiatives and collaborations in order to expand our expertise to improve and innovate the energy world.

*In particular, we are interested in:*

- Hydrogen production
- Energy storage
- Green community
- E-mobility

**Respect for the environment**

**Local sustainability**

**Commitment to decarbonisation**

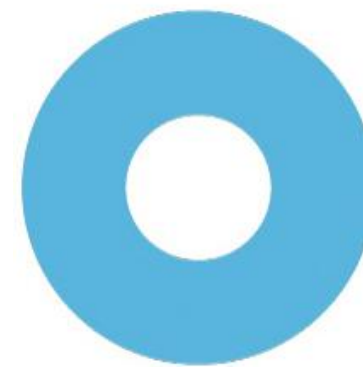

## What can we offer

We can offer our expertise in the field of the energy production from renewable sources developed after over 20 years of experience.

Thanks to our plants we can provide opportunities and collaboration to test and develop new technologies.
