

Hydrogen and decarbonization mission Torino- July 1st 2022

In collaboration with

And in collaboration with the Regional
Innovation Clusters of Piemonte

per una crescita intelligente,
sostenibile ed inclusiva
www.regione.piemonte.it/europa2020
INIZIATIVA CO-FINANZIATA CON FESR

PUNCH Hydrocells, based in Turin in the “Cittadella Politecnica”, is the answer by PUNCH Group to the energetic transition needed to tackle the climate change issues.

We firmly believe that the planet deserves sustainable solutions and green Hydrogen represents a perfect energy vector to adress the decarbonization challenge, as it provides a zero-emission carbon footprint.

Our team is composed of a highly skilled resources, specialized in fields such as artificial intelligence, control electronics, mechanical and electrical engineering, all of which are applicable to the industry of renewable energy.

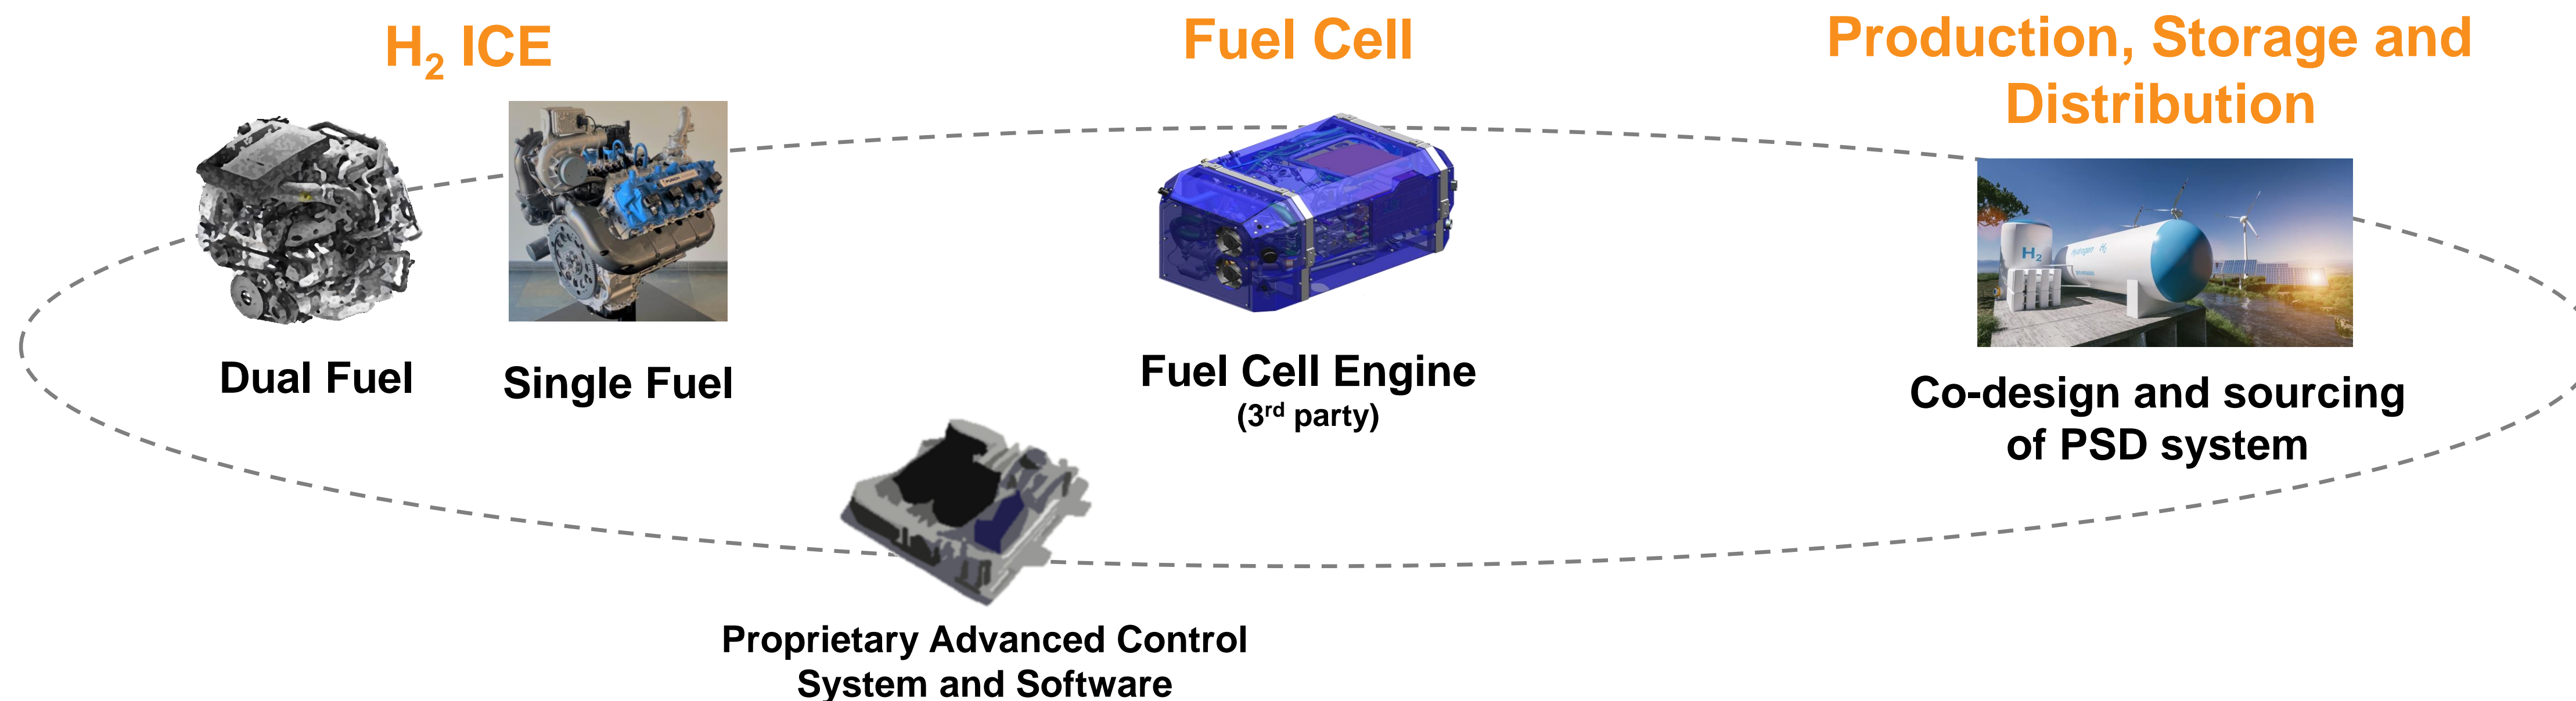

We make **hydrogen power a practical proposition** by delivering

- hydrogen internal combustion engine systems,
- integrating hydrogen fuel cell technologies,
- systems for the production, storage and distribution of green hydrogen

for propulsion and power generation

building our **excellence** around passionate and professional **people**.

We believe in **technology neutrality** and that **one solution does not fit all**, hence Hydrocells' product portfolio offers a full range of Hydrogen Technologies:

The portfolio reflects our **diversification strategy** in terms of H₂ technologies aimed to foster **hydrogen ecosystems** and to meet the whole range of CO₂ reduction of the NZE roadmap.

What are we looking for

Hydrogen and decarbonization mission
Torino- July 1st 2022

- **Partners** for funded projects on the 3 pillars:
 - 1) H2-ICE
 - 2) Fuel Cells
 - 3) Production, storage & distribution
- **Clients** interested in being pioneer in hydrogen off taking and production

- **Turnkey solutions** for hydrogen propulsion and hydrogen production
- **Advanced controls** systems (Hardware & Software)
- **Engineering support** for Hydrogen solutions
- **Network** in the hydrogen space
